

Out with the Old, in with the New Sales Event!

Buy one get one 20% off on Intelli-Sense purchases thru Dec 31st, 2018***

Use code IntelliSenseFall18

Product Introduction

Designed exclusively for our uniformity and dynamic balance machines, Micro-Poise has integrated new technology with state-of-the-art electronics in measurement and testing. Our new Intelli-Sense Modular Instrumentation system is now offered on new final finish test machines and available to replace obsolete legacy instrumentation on existing dynamic balance machines.

Intelli-Sense is our new platform for the next generation of test and measurement solutions for both the tire and automotive industries. This new measurement and analysis system augments the overall capabilities of a dynamic balance machine. It positions the equipment to support a future platform of test and measurement functions. The intelligence built into the unit enables enhanced pattern analysis of raw data being received from the sensors while operating at high speeds.

Intelli-Sense Key Functions:

- Industrially-hardened on-board electronics provide high accuracy and precision at sub-millisecond speeds over a large range of channels and signals. This delivers unprecedented measurement information and multiprocessing capabilities.
- Rugged packaging enables the system to operate at super-duty levels within a wide range of operating conditions including dust, liquid exposure, and very wide temperature ranges.
- Designed for quick field installation and low maintenance, the unit is easy to troubleshoot with self-diagnostics.

**Offer valid for AIT, ATW, and VTW machines.
Contact your Micro-Poise sales representative for a quotation!**

****All prices quoted are Ex-Works Micro-Poise® Not to be combined with any other coupons or special pricing programs. Offer expires Dec 31st, 2018.****

When you have a company with 100 years of innovative work behind you,
you have a measurement system that puts the leading edge of tire finishing technology in front of you.
Micro-Poise®. *Better by every measure.*
