Micro-Poise[®] Marking Compound is designed to be the leading tire marking product in the world. Micro-Poise[®] Measurement Systems engineers utilized feedback from the field to meet customer's changing needs. This product has been enhanced by using powder dies to eliminate color separation and to help maintain consistent material flow.

Micro-Poise[®] encourages every customer to do a preventive maintenance check on their machines and have the correct consumables on hand. This will effectively save time and money. Please contact a Micro-Poise[®] sales representative for more details.
