BUY 10 Wool Lube Sleeves and GET 1 FREE on purchases thru December 31st, 2018***

Use code WoolSleevesFall18

The Micro-Poise[®] Wool Lube Sleeve is strongly recommended as a spare part for your stock.

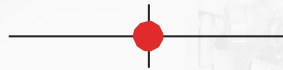

After lubricating multiple tires, the sleeve will eventually become dirty, wear out, and can affect the performance of your machine. All Micro-Poise[®] machines ship with a spare plastic applicator roll. We suggest you have a pre-installed wool lube sleeve on the spare applicator roll, so that at the time of need, you can change out the ineffective sleeve with a brand new one in just minutes. Eliminate wasteful downtime by stocking critical spares for your Micro-Poise[®] machines!

Micro-Poise[®] encourages every customer to do a preventive maintenance check on their machines and have the correct consumables on hand. This will effectively save time and money. Please contact a Micro-Poise[®] sales representative for more details.

When you have a company with 100 years of innovative work behind you,
you have a measurement system that puts the leading edge of tire finishing technology in front of you.
Micro-Poise[®]. *Better by every measure.*
