

Windows® 7 Upgrade

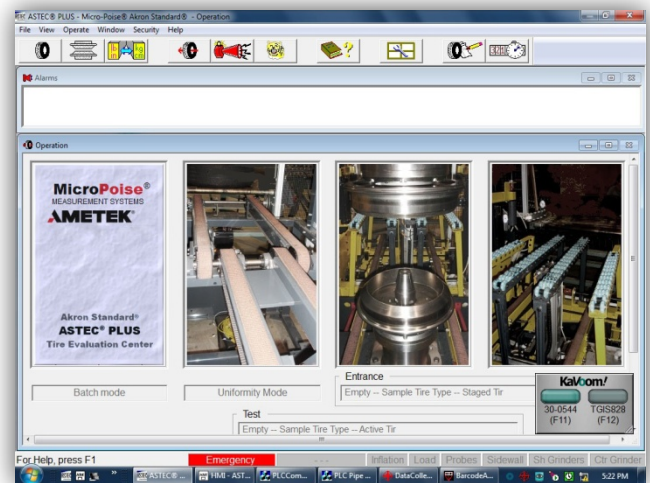

Micro-Poise provides an upgrade kit for Windows® 7 software. Now is the perfect time to upgrade Uniformity, Dynamic Balance and Geometry System software to get better performance, improved security and return on your investment. Windows® 7 is an enhanced version of the Microsoft platform with a similar look and feel and new features and benefits.

Features:

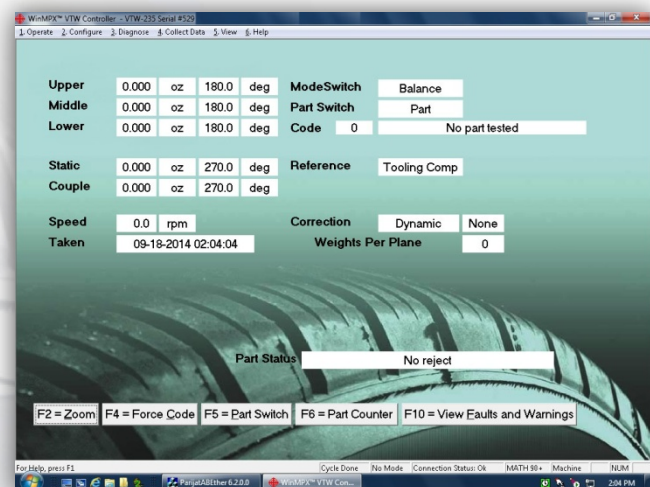

- Improved Efficiency
- Quicker Start-up
- Microsoft® Support
- Faster File Transfers
- Enhanced Security

Benefits:

- The operating system is loaded with tools and features that save time and make work easy.
- The average machine will boot up quickly, which will save time and improve productivity.
- Security and Support from Microsoft® to help protect from viruses and increased costs.
- The user will have faster file transfers.
- The navigation of the new system is simpler and easier to multitask.
- Improved security helps to protect your machine controllers from malware and viruses and prevent lost data.
